

⚠ IMPORTANT NOTICE

Model: GFRP721824 & GFRP722430

Install the included **metal bracket** at the **bottom of the planter**.

🔧 When to Add the Bracket:

- **Install after Step 2** from your assembly instructions.
- **Turn the box on its side** for easier access.

🔧 How to Install the Bracket:

1. **Position the bracket** so that it is **centered** between the two black screws. **Press down firmly** on the planter to ensure the bracket sits **flush from end to end** (see diagram below).
2. **Use the provided screws.**
3. **Note:** There are **no pre-drilled holes** - screw directly into the wood, in the 1st and last hole on the metal bracket using Phillips screwdriver. Do not over tighten.

📸 Refer to the image below for proper placement.
